

## THE COMPANY'S QUALITY AND ENVIRONMENTAL POLICY

It is the express will of the management of UTE TEM (TRACTAMENTS ECOLOGICS U MARCSMC), hereafter UTE TEM, to continuously improve the development of the activities of our organization to achieve the satisfaction of our clients and stakeholders, and to this reason the organization is managed under the principles of international management quality to ensure efficient service, continuously improving the performance of our processes.

UTE TEM is committed to developing its services with the utmost respect for the protection of the environment, as well as to continuously improving its environmental practices using, whenever possible and economically viable, the best existing techniques.

UTE TEM is aware of its environmental responsibilities arising from its activities and for this reason it continuously seeks new methods and technologies to reduce its environmental impact on its processes.

Specifically, UTE TEM undertakes to:

- **MAINTAIN** an open relationship and provide environmental and quality **INI CUMVADIVU** arising from its activities to create a friendly neighborhood or other interested parties.
- **ENSURE** that every employee is responsible for the quality of their work, which complies with the procedures for good management of the environmental aspects arising from their activity.
- **PROMOTE** the implementation of the Quality and Environmental Policy and its objectives, checking on execution and efficiency through internal and external audits and periodic review by management.
- **MAKE** quality a task common to all **ARCAS** of UTE TEM and ensure that each sector assumes its customer and supplier of obligations and policies in the organization.
- **COMPLY** WITH all laws and other possible improve the requirements of the **LEGISLATION NACIONAL** and to establish rules where there are none.
- **REDUCE** whenever possible **WASTE** and **EMISSIONS** generated by its activities.
- **WORK** with **SUPPLIERS AND CONTRACTORS** on the improvement of the quality of its services and its environmental performance.
- **PROMOTE** the **ACTIVE PARTICIPATION OF THE COMPANY'S STAFF** through **QUALITY** and **ENVIRONMENT**.
- **PROMOTE** activities aimed at the prevention of pollution.

Principles and practices of Quality Management and Environment will be applied to achieve these commitments and existing and measurable objectives will be annually established, providing the necessary human and material resources and establishing the appropriate periodic controls to gauge the progress made.

The management of UTE TEM will make the company's Quality and Environmental Policy known to all its workers and will arrange access to the Manual of Management of Quality and the Environment.

Following these guidelines, UTE TEM adopts an integrated system of quality management according to Norm UNE - EN ISO 9001:2015 and Environmental Management in accordance with Norm UNE - EN ISO 14001:2015.

Madrid, 05 May 2016

Ricardo Ruiz Korman
